PROFESSIONAL SUMMARY

Mobile Application Developer with practical experience designing and building cross-platform applications using Flutter and Dart. Certified in artificial intelligence fundamentals and machine learning specialization, with a solid foundation in mobile-first product development. Experienced in developing real-world applications including e-commerce and service-based platforms. Focused on clean code, usability, and continuous improvement. Seeking junior or entry-level opportunities to contribute to growth-oriented teams locally or remotely.

CORE TECHNICAL SKILLS

- Flutter, Dart
- UI/UX Principles, Responsive Design
- RESTful APIs, Firebase
- Firebase Firestore, SQLite
- Artificial Intelligence Fundamentals
- Machine Learning (Specialization)
- Git, GitHub, VS Code
- Debugging, App Optimization

CERTIFICATIONS

- Mobile App Development with Flutter & Dart - UseMy Mobile App
- Introduction to Artificial Intelligence
- Machine Learning Specialization
- Supervised Machine Learning: Regression and Classification
- Advanced Learning Algorithms

PROJECTS

E-Commerce Mobile Application for Bakers

Developed a mobile e-commerce application enabling bakers to list products and sell directly to customers. Implemented user authentication, product catalog, cart, and order management features. Prioritized usability and performance to support small business operations.

Makeup and Barber Service Booking App

Built a service-based mobile application connecting customers with makeup artists and barbers. Implemented service listings, appointment booking, and user profiles. Designed a simple and intuitive interface for smooth navigation.

PROFESSIONAL EXPERIENCE

Freelance and Personal Projects - Mobile Application Developer

Designed, developed, and tested mobile applications from concept through prototype deployment. Handled feature implementation, debugging, and UI refinements while following best practices.

EDUCATION

Bachelor of Science in Computer Science

Ignatius Ajuru University of Education, Nigeria

ADDITIONAL INFORMATION

Open to remote and international opportunities. Strong problem-solving mindset and eagerness to learn.
Comfortable working independently or within collaborative teams.
